Medication Details

Medication

Acetaminophen

500mg

Dosage

500mg

Usage Instructions

Take one tablet every 4-6 hours as needed for pain or fever. Do not exceed 4000mg in 24 hours. Consult your doctor if symptoms persist for more than 10 days.

Potential Side Effects

Common side effects may include nausea, vomiting, and abdominal pain. Serious side effects are rare but may include liver damage. Seek immediate medical attention if you experience signs of an allergic reaction, such as rash, itching, or swelling.

Additional Information

Store at room temperature away from moisture and heat. Keep out of reach of children. Do not use if the safety seal is broken or missing. This medication may interact with other drugs; inform your healthcare provider of all medications you are taking.

Specialized in the diagnosis and treatment of dental and facial irregularities. Skilled in designing and managing orthodontic treatment plans using braces, aligners, and other corrective appliances. Developed deep understanding of jaw growth, bite correction, and esthetic dental solutions.

Dr. Hiwa Amanj is a specialized orthodontist practicing at Smart Health Tower, focusing on the diagnosis and treatment of dental and facial irregularities. He brings extensive expertise in designing comprehensive orthodontic treatment plans using traditional braces, modern clear aligners, and various corrective appliances. Dr. Amanj has developed a deep understanding of jaw growth patterns and bite correction, enabling him to provide effective treatments for complex orthodontic cases. His practice emphasizes both functional improvement and esthetic dental solutions, combining technical precision with patient comfort throughout the treatment process. Through his dedicated focus on orthodontics at Smart Health Tower's modern facilities, he has helped numerous patients achieve improved dental function and enhanced smile aesthetics.
